Introducing the **Home Learning Hub**

Home Learning Hub

Home Learning Hub is our free library of resources to support parents and carers in educating their children on staying safer in a digital world.

We have adapted our classroom-based resources to make them accessible for parents and carers. Read the brief description below each lesson which describes what this resource is, then simply click on the "download" buttons to access each resource.

To access the Home Learning Hub, just follow the simple steps below:

Open a web browser on your desktop computer or laptop e.g. Chrome, Safari etc.

Type the web address or click the link below: **www.oursaferschools.co.uk/home-learning-hub** and hit return and this will take you to our home page.

Don't forget to "like" and follow us @OurSaferSchools on **Facebook** and **Twitter** for more relevant information
